A Guide to Developing End User Education Programs in Medical Libraries (Hardback)

By Elizabeth Conner

Taylor Francis Inc, United States, 2005. Hardback. Condition: New. New.. Language: English . Brand New Book. Explore a wealth of ideas, insights, and approaches that can be used or adapted by any medical library! Curricular changes in the health professions, coupled with a growing acceptance of the Internet as a tool for daily living, have contributed to a climate of change and opportunity for health sciences libraries. A Guide to Developing End User Education Programs in Medical Libraries will help graduate students in library science, entry-level medical librarians, and experienced educators to understand best practices and to build, expand, and improve medical library-sponsored educational programs. A Guide to Developing End User Education Programs in Medical Libraries is designed to aid and inform professionals who develop, teach, or evaluate end-user education programs in health sciences libraries. Eighteen case studies represent the ideas and approaches of more than fifteen private and public institutions in the United States and the Caribbean. The studies focus on effective end-user programs for medical information electives, veterinary medicine programs, health care informatics, and evidence-based medicine, plus instructional programs for teaching residents, ThinkPad-facilitated instruction, and more. The guide also examines how several medical libraries have created and expanded...
