SUPPLY CHAIN MANAGEMENT IN FISHERIES

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | A Study in Bangalore Fish Markets | Supply Chain Management (SCM) includes the physical and money flows from producer to consumer. India produces around 7 million tonnes of fish annually. Inefficient supply chain has been the major problem facing Indian fishery industry. Bangalore, the capital city of Karnataka has five fish markets and the present study of SCM of freshwater fishes was restricted to three markets viz: Russell market, City market and Yeshwanthpur market....

This book might be worth a read, and superior to other. Of course, it really is engaging, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Prof. Valentin Hane MD**

Thorough manual! It's this kind of excellent study. It really is written in straightforward terms and never difficult to understand. I am very happy to inform you that this is basically the very best pdf we have read through during my individual existence and could be the greatest ebook for possibly.
