MECHANICS OF SHEET METAL FORMING

Butterworth-Heinemann. Paperback. Condition: New. 211 pages. Dimensions: 9.5in x 7.0in x 0.5in. The basic theory of sheet metal forming in the automotive, appliance and aircraft industries is given. This fills a gap between the descriptive treatments in most manufacturing texts and the advanced numerical methods used in computer-aided-design systems. The book may be used by lecturers in undergraduate courses in manufacturing; plentiful exercises and worked examples provide quantitative tutorial problems for students. A separate, but related simulation software package advertised on..
