

Spirometry (Paperback)

Filesize: 5.09 MB

Reviews

It in one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Camylle Larson)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is intended to help in the use of spirometry. The book is divided in two parts. The first part deals with general aspects of the spirometry technique, and contains information and descriptions intending to provide the reader a general idea of the technique. The second part is dedicated to test interpretation, and is intended to be a guide in the process of understanding the significance of the numeric results. Hopefully, the book may help to overcome barriers preventing a more widespread use of spirometry.
