Reviews

Absolutely among the finest pdf I have got possibly read. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Prof. Lois Cormier II)

TOXIC SUBSTANCES: STATUS OF EPA S REVIEWS OF CHEMICALS UNDER THE CHEMICAL TESTING PROGRAM: RCED-92-31FS

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO provided detailed information on 16 of 22 chemicals tested by the Environmental Protection Agency (EPA) for health and environmental effects, focusing on: (1) testing and review time frames; (2) EPA test data reviews; and (3) EPA actions in response to its findings. GAO found that: (1) as of June 1991, EPA had completed its review of test results for 16 of 22 chemicals which met data submission requirements; (2) EPA plans no further action on 7 of the 16 chemicals with negative test results; (3) despite test results indicating potential adverse effects, EPA plans no further action on an eighth chemical because its exposure to people or the environment was low; (4) four of the eight remaining chemicals showed adverse effects and EPA referred those chemicals to other agencies and EPA offices for possible regulatory action; (5) EPA was planning additional testing for two other chemicals that did not indicate potential adverse effects, but were of sufficient concern to warrant testing; (6) EPA was waiting for the results of further ongoing testing before deciding what action to take on the final two chemicals; (7) from their nomination for testing through the completion of EPA reviews, the average time required for testing the 16 completed chemicals was 8 years; and (8) when the industry does not agree with the testing plan and time frames, EPA can issue a final test rule, under which industry must conduct the testing program according to EPA specifications.
