RiskUpside Analysis: A Framework for Making Profitable Investment Decisions

By Lenny Grover

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 198 pages. Dimensions: 8.0in. x 5.2in. x 0.5in. RiskUpside Analysis presents a clear and concise framework to help investors make better investment decisions. Author Lenny Grover draws upon his background in venture capital and his experience developing Screener. co, a web-based equity research platform, to present a holistic framework for evaluating businesses, their financial statements, and their securities. Following a thorough discussion of how to evaluate public company stocks, RiskUpside Analysis then demonstrates how similar frameworks can be applied to other asset classes, securities, and investment decisions. With a succinct writing style, and many illustrative examples, Grover challenges conventional wisdom while advocating a deliberate, data-driven, holistic investment approach that incorporates an understanding of both a company's quantitative financial metrics as well as its market, competitive position, and other important qualitative details. Despite being clearly influenced by notable value investors like Benjamin Graham, Warren Buffet, and Seth Klarman, RiskUpside Analysis ambitious framework is broadly applicable across investment strategies and objectives, and in any market environment. RiskUpside Analysis can bring a novice investor up to speed in less than 200 pages, while giving even very experienced investors a lot to think...
