Date :2009-1-24. Author of the book is not a university teaching labor economics teachers. but in China's labor and employment research scientists. therefore. the characteristics of the book lies not in their knowledge of the systematic problems and may even choose will appear in the exhaustive case. However. due to the author's comparative advantage in human capital is the issue of China-related research experience. so we stand out as much as possible to this feature through the book. helping readers to two levels from the theoretical and practical understanding of China's labor market to . including its transformation and development. Labor market restructuring and development. China's economic system transition and an important part of market development. We recognize that this particular market. you need to proceed from the overall reform and development. from a broader background of the various transition phenomena in-depth study. In addition to the book as much as possible to each subject revealed the macro level. the study also show the reader that the reader not only to...
