iUniverse, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Calling is the art of deception. One creates a false, but convincing, illusion. There are many methods of calling. This is old knowledge that is currently being rediscovered by modern science. Whitetails rely on three primary sensory systems for survival-auditory, visual and olfactory. Therefore, they can be tricked on any of these levels. The main objective of any form of calling is to manipulate a deer to approach within comfortable shooting distance. This book offers techniques and tactics for luring in whitetails. It illustrates how to fool all three senses of the whitetail.
