

Maths Investigator: MI6: Getting Started Guide

By Caroline Clissold

Oxford University Press, United Kingdom, 2008. Paperback. Book Condition: New. 297 x 210 mm. Language: N/A. Brand New Book. Maths Investigator is a secret spy agency whose mission is to make maths fun and exciting. The series has been extensively trialled and developed to offer schools a fresh and exciting way to combine the content and structure of the 2006 Mathematics Framework with the principles of the Primary Strategy Excellence and Enjoyment guidance - to raise standards whilst making learning fun. The Maths Investigator approach focuses on developing the key skills of problem solving, speaking and listening, and using and applying maths. It uses the engaging spy context and fully integrated software components to embed maths into problem solving and give pupils a clear purpose for learning. For flexibility, Teacher's Guide units are packaged in topic packs. Each pack contains three two-week units of work, including access to the associated Interactive CD unit. Alongside these, the Getting Started Guide provides background information about the rationale and philosophy behind the Maths Investigator series, in addition to quick and simple explanations of how to start using Maths Investigator components in the classroom, a bank of oral and mental starter activities, and...

Reviews

Certainly, this is the greatest work by any author. It can be written in easy words and phrases rather than confusing. I am just happy to let you know that this is actually the greatest ebook we have studied inside my individual daily life and may be the greatest ebook for at any time.

Most of this ebook is the best publication available. It is definitely simplistic but unexpected situations within the 50 percent of the book. You will not sense monotony at any moment of the time (that's what catalogs are for relating to in the event you request me).
