Excerpt: .color to precipitate, a state of affairs that has been occasionally met with. With the sulphur colors (Immedial Colors) the conditions are about the same; in this case the usual quantity of salt is very high, in some instances just short of saturation, the reason being that these particular colors will only show their full tone when dyed in a bath of great density. The additions to these baths are also regulated with some attempt at accuracy, but only in a few cases is due regard paid to the loss of salt through removal in the wet yarn. Standing baths with Immedial Blacks are easy to maintain when once the proper quantity to bring the shade up to that of the first kettle is obtained, but where various depths of black are being dyed, the dyer is always the best judge as to...
