MURACH'S ASP.NET 4.5 WEB PROGRAMMING WITH VB 2012

Mike Murach Associates Inc., United States, 2013. Paperback. Book Condition: New. 5th ed.. 251 x 201 mm. Language: English . Brand New Book. If you know the basics of Visual Basic, you're ready to learn to develop server-side web applications with . And that's where this book comes in: Section 1 presents a quick-start course in multi-form web applications, Visual Studio tools, and HTML5/CSS3 code -- a course that works both for beginners and for experienced web developers who are new to . Section 2 gives you the skills you need for every application you develop -- like how to use the server controls, validate user entries, manage state, use master pages and themes, provide site navigation, and use friendly URLs. Section 3 presents the skills you need for developing database-driven web sites at a professional level -- including how to use SQL data sources, object data sources, and data controls like the GridView, DetailsView, FormView, and ListView controls. Section 4 covers skills that enhance your professionalism; like how to develop secure web pages, authorize and authenticate users, send email, control the use of the Back button, and deploy finished applications. Section 5 takes you to the next level by showing you how to use ASP.NET Ajax, how to develop WCF and Web API services, and how MVC programming differs from Web Forms programming. To make it easier for you to master , you get complete web applications; including the web forms, the aspx code, and the VB code; that show you how each feature works in context. (You can download these for free from the Murach web site.) You get chapter exercises that let you practice your new skills. And you get Murach's distinctive paired-pages format that developers like because it saves both training and...
