Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Humanity s future depends on the adoption of culture as the central organizing principle of society. Decades of investigation, reflection and research have led cultural scholar Paul Schafer to this conclusion. Originally trained as an economist, Schafer came to realize that, despite all its benefits, the current economic age must soon give way to a new age of culture that places the highest priority on people and the natural environment, rather than materialism and the marketplace. Only if the focus is on the development of the potential of all the world s cultures and peoples does humanity stand a chance of moving beyond its present Time of Troubles to a more fulfilling future. The past several decades have seen the concept of culture achieve ever greater prominence throughout the world, culminating in culture being named Merriam-Webster s Word of the Year in 2014 because of its importance in both public and private discourse. The Secrets of Culture paints a compelling portrait of the new world that awaits us, while also providing revealing...
