Taylor Market Intelligence, Inc., United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Marketing technology products to business customers is a distinct discipline. It doesn't resemble consumer-facing tech marketing at all. It's not even the same as business-to-business (B2B) marketing in general. B2B technology marketing requires a completely different way of thinking about customers, products, and markets, mostly because these factors are in a permanent state of flux. This book takes a pragmatic, strategically informed view of B2B technology marketing, exploring the essential responsibilities of the B2B technology marketing executive, including: - Lead generation - Filling the sales pipeline - Strategic messaging - Supporting the sales team - Communications and public relations - Creating customer preference - Product marketing.
