Brand New Book ***** Print on Demand *****.Chakras are centers of energy throughout your body, and each has its own specific and important function. The chakras are represented by differing colors, and most people tend to operate from one at a time, or two or three at a time, by default. Learning how to keep these in balance will ensure that you have a healthy and positive life, and this book is a great place to start your journey. In this guide about chakras, you will learn: -What each Chakra is Responsible for: Each energy center of your body is responsible for differing functions, such as your will power or verbal expressions.
