Frances Lincoln Publishers Ltd, United Kingdom, 2015. Hardback. Condition: New. Amy Husband (illustrator). Language: English . Brand New Book. An exciting and dramatic story about how life began and developed on Planet Earth, full of fascinating facts and funny illustrations. At first, nothing lived on Earth. It was a noisy, hot, scary place. Choking gas exploded from volcanoes and oceans of lava bubbled around the globe. Then in the deep, dark ocean, something amazing happened. Find out how the first living cell was created, and how the cells multiply and create jellyfish and worms, and then fish with bendy necks, which drag themselves out of the water into swampy forests. Discover the story of the biggest creatures that have ever walked on land - the dinosaurs. Long after that, hairy creatures who have babies, not eggs, take over, stand on two legs and spread around the world, some of them living through cataclysmic events such as ice ages and volcanic eruptions. Everyone living today is related to these survivors- including you! This is the perfect first book about evolution for young readers.
