An Elementary Algebra

By Daniel Barnard Hagar

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1873 edition. Excerpt: .coefficient, and multiply the exponents of the letters by 3; hence, to find the cube root of the given monomial we reverse the process; that is, we extract the cube root of its coefficient, and divide the exponents of the letters by 3. The cube root thus found is $5a^3z$. 2. Find the square root of $36e^6$ Solution. Since finding the $m \times J$ square root of a quantity is the reverse of squaring the root, we extract the square root of the coefficient of the given quantity, and divide the exponents of its letters by 2. The square root thus found, which may be either positive or negative (Art. 244, 2), is $6ab^3$. Find the fourth root of $81afy$. Ans. $3x^y$. 246. Rule for Evolution of Monomials.--Extract the required root of the numerical coefficient, divide the exponent of each letter by...
