The First Renaissance was a cultural movement that spanned the period roughly from the 14th to the 17th century, beginning in Italy in the Late Middle Ages and later spreading to the rest of Europe. Though availability of paper and the invention of metal movable type sped the dissemination of ideas from the later 15th century, the changes of the Renaissance were not uniformly experienced across Europe. As a cultural movement, it encompassed innovative flowering of Latin and vernacular literature, beginning with the 14th-century resurgence of learning based on classical sources, which contemporaries credited to Petrarch, the development of linear perspective and other techniques of rendering a more natural reality in painting, and gradual but widespread educational reform. For many years; even centuries later we wanted to live to see the day and that a Second Renaissance that will come and inspire us to do great and terrible things. Whatever the Second Renaissance would be, will come at a hefty price on mankind.
