Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Portable Hog Feeder From Red Oak Lumber Hog feeders were produced from No. 1 Common, No. 2 Common, and No. 3 Common red oak lumber, and from C and Better Douglas-fir Finish lumber, which is commonly used for these products. Production of 210 feeders from about board feet of lumber showed that, despite lower yields and higher investment, labor, and overhead costs, feeders can be produced at less cost from all grades of oak lumber studied than from the higher priced, high - grade Douglas-fir lumber. Those who are concerned with the problem of marketing No. 2 Common and Poorer grades of hardwood lumber would do well to look to hog feeders and similar small farm structures as possible uses for this material. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
