Excerpt from Manufacturers Shipments, Inventories, and Orders, 1978-1984: M3-1. 14 Data for 1972 through 1984 were used in the calculation of the new historical and forecasted seasonal factors. This is a change from prior years when data for the entire series which extends to 1958 were included in the calculation of these factors. The omission of these earlier data caused virtually no change in the calculation of the current and forecasted factors. No data prior to 1978 have been revised or republished due to the insignificance of the revisions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
