Brand New Book ***** Print on Demand *****.On June 29, 2009, we issued our report on fatigue factors that could impact air traffic controllers. We conducted this audit at three critical Chicago air traffic control facilities at the request of Senator Richard Durbin of Illinois. These 3 facilities are among the top 10 busiest in the United States, and Senator Durbin expressed concerns that staffing shortfalls, longer hours on the job, and a growing shortage of certified controllers may be causing controller fatigue. Accordingly, our audit objectives were to (1) identify and evaluate key factors that could cause controller fatigue at Chicago O Hare International Airport Air Traffic Control Tower, Chicago Terminal Radar Approach Control Facility, and Chicago Air Route Traffic Control Center and (2) identify what measures FAA has taken to mitigate potential controller fatigue at these locations. We identified a number of factors at these three facilities that could create potential fatigue conditions for controllers. These include minimal hours between shifts; scheduled overtime; and on-the-job training, which requires a high level of concentration and focus from the instructing controller. Facility personnel also identified...
