A GENERAL CATALOGUE OF 1920 DOUBLE STARS: DISCOVERED FROM 1871 TO 1899 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A General Catalogue of 1920 Double Stars: Discovered From 1871 to 1899 A general catalogue of all the double stars discovered by me from time to time during the past twenty-hye years has long been needed by those interested in this field of astronomical research, and, by reason of the special interest attached to many of these remote sidereal systems, it has become more and more important to bring the scattered material together in order to intelligently pursue the investigations which promise to so much increase our knowledge of the great universe beyond the solar system. These discoveries are scattered through nineteen different catalogues, published at various times and places, commencing with 1873 and the observation of these stars by a great num ber of astronomers in this country and in Europe can only be made use of by consulting hundreds of volumes of observatory and society publications, astronomical periodicals, etc. It is difficult, if not practically impossible, for the general observer or investigator to make a really complete collee tion of all the measures of a large number of these stars. Many of the observations are in obscure and unusual places, and in works not always readily accessible. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
