MAGNETIC BEARINGS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of the First International Symposium, ETHG Zurich, Switzerland, June 6-8, 1988 | Magnetic Bearings are bearings where the suspension forces are generated magnetically without any contact. The advantages to modern machinery are obvious: no mechanical wear, no lubrication, potential for high rotor speed, accuracy, and high dynamic performance, new constructional solutions to a classical problem in machine dynamics. The realization of such bearings is in rapid progress. Examples for application areas are...
