Outskirts Press, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. After Howdy Doody---but way before the Internet This true story will rivet the attention of anyone who grew up from the late 1950s through the 70s. It is truly a case study that offers the reader, whether youthful or of more mature years, a measuring stick to compare all facets of daily life then and now. Our young hero ricochets through grade school and high school, picking up a goodly number of personal and cultural bruises, blithely unawares of his somewhat sheltered existence. Come the late teens, and with meager parental guidance, the realities of young adulthood come cascading. The writer employs large dollops of tongue-in-cheek humor, with a few sprigs of philosophy, thus concocting a what s-next brew as we hurtle through the late teens and into the 20s. This is a drug and violence-free read, heavy on feel-good adventures and how one can make a few positives out of a bunch of negatives. Al Fischer.
