Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Essentials of Pathological Chemistry Including Description of the Chemical Methods, Employed in Medical Diagnosis The individual chapters of this volume are reprinted from the Post-Graduate, in which they have appeared at intervals during the past year. As will be observed, the general arrangement of the chapters follows the course of the various food materials through the body. Each chapter is composed of a resume of the subject with which it deals, followed by directions for laboratory tests, especially those which are considered of diagnostic value. The authors have endeavored to make the discussions complete, though concise, presenting the subject with the most recent...
