Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Do you know how you should live and what life is all about? The truth is hidden away and replaced by grandiose oratory by those who you trust. Many times you are told things as if your teacher knows things beyond you understanding. Some claim God himself told a special few what people should do. Many times it is simply an attempt at becoming the caretaker of what they want to be true or want you to believe to advance them in some way. I m tired of it. This book will get a great number of teachers, scientists, preachers, historians and charlatans angry, but I don t care. Let me tell you from the beginning, this is not a sequential description of history but instead it is purposely jumbled to allow you to focus on a particular issue in our history, science, schools, and religious teachings. These truths range for Biblical concepts, scientific theory, historical records, physical evidence abandoned, modern correctness, established heroism, and adapted anthropic realization. Some are so close to common sense that you may wonder how you were every talked into thinking a certain way. Some of the topics include the land Bridge lie, Out of Africa error, Our slave Presidents, Ota Benga, the fake Aryan Invasion, frozen Mammoths and many more.
