Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from John Ruskin, Vol. 3: Economist Mr. Ruskin has so often spoken other than smooth things. One aim, however, is clearly avowed - an aim characteristic of all the essays of the present series that of attempting to substitute the scientific for the literary method of criticism. The ordinary journalistic method of criticising a book like Mr. Ruskin's *Fors Clavigera*, namely, that of quoting only some web of paradox or burst of passion, is at once dishonest to the author and misleading to the reader. The scientific attitude should be the precise reverse of this. The student, if genuinely trained at all, soon lays aside the slim text-book which incompletely summarizes the facts of his science from one author's own narrow standpoint, and learns to work his way dispassionately through the vast literature which lies behind it; often wearily wading through shallow seas of verbiage, or toiling patiently through deserts of details, useless and numberless as the sand; now silently evading some dismal swamp of error, often crushing a whole stony volume for a few grains of genuine gold. Nuggets indeed there are, but never gold-beds nor Aladdin palaces, and even the traveller's own hard-won treasure will need refining and re-refining by his intellectual heirs. So then if we agree to take up the scientific attitude, if, instead of collecting curiosities of apparent or real error leaving the truth behind, we seek to gather out of these masses of new and strange thought whatever we find, on fair analysis, to be true metal, we are ready to begin gold washing.
