Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Updated and Revised 2012 Edition! In order for humanity to evolve, the concept of religion must be laid to rest. The reason for this is that religion is quite the opposite of what it professes to be. Blunt truth be known, religion is the most divisive element in the history of this planet and has caused more wars, violence, death and destruction than any other reason. This nonsense has to stop. Religion, which is based upon fear, judgment, condemning others and declaring yourself holier than thou must be replaced with a new spirituality. We must come together as one cohesive unit, one planet, one people, as opposed to calling ourselves holy and righteous and then fighting over whose God is the one and only true God and ruthlessly killing each other based upon our own chosen superstition. When humanity grows up and incorporates some divine wisdom into their daily lives they will come to the full realization that true spirituality does not include guns, bombs, genocide, mass murder, ethnic cleansing, mythology and fanaticism.
