TRANSACTIONS OF THE BRITISH SOCIETY FOR THE STUDY OF ORTHODONTICS, 1921 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Transactions of the British Society for the Study of Orthodontics, 1921 There is little hope, I suppose, of being able to get an ideal school at once, but I should like to indicate what seem to me the lines upon which work should be started, and what should be aimed at. Eventually I hope to see a permanent school with its own clinic, at which students can obtain practical experience concurrently with and subsequent to the training in theory and technique. Financial difficulties and the initial uncertainty as to the number of students, put that put of court at present. Practical considerations point to a course of ten or twelve weeks. In planning a curriculum the central idea should be to give as sound a knowledge as possible of the principles, physiological and mechanical, on which orthodontic work is based. Our knowledge of these is limited indeed, but if we aim at teaching thoroughly what is known, and indicating the need for further study and the lines along which it should be made, we shall be rendering a far greater service both to the individual student and to the science than if we aim merely at perfecting technique in some particular form of mechanical appliance or at making the student familiar with as great a number of appliances, or of varieties of malocclusion, as possible. Foremost amongst these basic subjects I would put what I can Only call the study of normal occlusion. It is absolutely essential that anyone setting out to correct abnormalities should have a clear idea of what normal is, not only that he may realise at what he is aiming, but that he may recognise with what..
