Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Method in Education: A d104-Book for Teachers How to teach. On the other hand, the question as to form of education - the 12020 to teach - must be answered in the main by a practical psychology, and only slightly and incidentally by sociology. If, as Laurie says, teaching is simply helping the mind to perform its function of knowing and growing, then only a care ful, persistent, and sympathetic study of the growing mind can show the teacher by what processes it acquires knowledge, assimilates it, and expresses the results (concepts and conclusions); and under what stimuli these processes are best and most fruitfully set going.
