

One Mighty Leap (Paperback)

By Dan Milburn

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Thousands of years ago, Earth was temporarily inhabited by an advanced species of people called ASPs. During their stay here, they helped the Earth develop into a beautiful lavish paradise, where they introduced countless species of life that began to evolve and easily flourish among the Earth's unlimited abundant resources. The ASP's creation of mankind to cultivate the Earth paved the way for its future. After completing the task of getting Earth off to a good start, they left, presumably to settle other planets throughout the Universe. But before they left, the ASPs built and left behind a robot, named Daniel, that could monitor and record life during Earth's evolution so that the positive aspects could be duplicated and the negative aspects could be rectified. The robot, was also left with a prime directive: Do not interfere with life's evolution unless dire circumstances warrant it. At the time the prime directive made sense because life was so simple, what could go wrong, right? Eventually, Daniel built a robotic companion who became known as Siri. Like Daniel, she was...

Reviews

I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
