FBC LTD, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. In 1876 Dr. Parker became interested in the telephone, as a result of lectures and demonstrations given in Lowell by Alexander Graham Bell, and soon built and experimented with a private line between his house and his office. By reason of these experiments Dr. Parker early realized the possibilities of the new invention, and was one of the first to give financial assistance to the...
