Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Life itself is not an easy process--I want to start by saying that people can start from somewhere in trying to deal with life's situations. I've had to learn the hard way growing-up as a child--by so doing there are things that I would not do a second time around, but also there are those that I would not give up trying to achieve--because in order for one to improve one's life; then a person should not give up easily . but must keep on trying as best as possible to advance one's life. We can all contribute our ideas, experiences, strategies, or more by informing others on the right path to follow by not making the same mistakes. We can show better examples for others to follow suit, or give advice that are healthy and helpful to those that need encouragement. Or a listening ear, or someone with inspiration for highlighting certain things, or issues highlighted for discussions that need to be addressed regularly.
