Reviews

Extremely helpful to all class of individuals. It really is written in straightforward terms instead of difficult to understand. I am just happy to explain how this is the finest publication I have got read inside my own lifestyle and might be the very best ebook for possibly.
(Dr. Meta Smith)

MEXICAN HEAT

Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. Nick Woods is tired of waiting. America's greatest sniper has spent the better part of two years up in the mountains of Montana, waiting for the government to double-cross him and try to come get him. He has good reason to be wary. The government has betrayed him twice already, but Nick's a hard man to kill. And just waiting in isolation, with his wife Anne gone and his paranoia at dangerous levels, is killing him day by day. And so Nick ventures out. Carefully, like Nick does everything. But what Nick doesn't know is that the Mexican government stands on the verge of complete collapse. A brilliant madman has united the drug cartels into a deadly alliance, and the Mexican president holds a perilous grip on power. Now, Mexico's leading businessman - a multibillionaire who owns much of the country - is about to exit the country, selling off his businesses and taking his capital out of the country. Such a move would lead to an exodus of other businesses, and just like that America would face one of its largest catastrophes in recent times: a third world country on its borders, run by a drug cartel whose reach spans from South America into deep within the United States. America has already sent special forces to deal with this cartel, but that proved a catastrophe. The country needs Nick Woods again, and it needs him now.
