Philip's Practical Astronomy Kit

By Philip's;CBE, DSc, FRAS, Sir Patrick Moore;John Woodruff;et al.

Philip's, 2013. Condition: New. An ideal starter kit for star-gazers, this set comprises two booklets: The Night Sky, Sir Patrick Moore's classic, easy-to-follow guide for beginners, and John Woodruff and Wil Tirion's Month-by-Month Star Finder, with a map for each month showing the locations of stars and constellations; plus the essential Planisphere 51.5 Degrees North, a practical map that shows where stars and constellations are for every hour of every night of the year.

Reviews

The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Erica Turcotte

This composed pdf is fantastic. It normally will not expense too much. You will like how the writer write this publication.
