Reviews

It is just one of my personal favorite publications. It is among the most awesome publications I have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

Crabtree Publishing Co, Canada, Canada, 1999. Hardback. Book Condition: New. 259 x 200 mm. Language: English . Brand New Book. Small Worlds introduces children to ecology and ecosystems by concentrating on life in a small part of a larger habitat. Beginning with a description of the habitat, the book then looks at the plants and animals that live there. Young readers are introduced to: -- the relationships that exist between groups of organisms and their environment -- important ecological concepts, such as producers, consumers, decomposers, and food webs, explained and illustrated with examples -- activities that encourage children to investigate ecosystems closer to home -- tips on observing safely without disturbing nature or endangering themselves A living tree is home to many different creatures. When the tree dies, a different group of animals and plants move in. A Dead Log describes the diverse kinds of insects, plants, and animals that live on and under a dead tree s bark as well as inside the log itself. A fantastic fact box tells children how to identify different insects and a special section gives tips on how to become a log detective. Concepts are explained such as: -- camouflage -- food webs -- shelter -- how fungi reproduce -- the process of decay in a log.
