A Preglacial Tributary To Paint Creek And Its Relation To The Beech Flats Of Pike County, Ohio. By W. G. Tight. Reference is made in the preceding article, in this volume, on : The Pre-glacial and Recent Drainage Channels of Ross county, Ohio, on page 17, to the extension of the preglacial valley of the upper part of Paint creek to the southwest, at a point a little above Bainbridge. It was with a view to ascertain the course of this tributary to Paint creek that these studies were undertaken. The results of glacial action along the margin of the ice sheet are so varied and at times so unexpected that almost every acre presents some new and interesting features. This region, lying as it does just on the boundary line of greatest glacial extension, is no exception. While it presents some characters common to...
