The Soul of Soil: A Soil-Building Guide for Master Gardeners and Farmers

By Joe Smillie, Grace Gershuny

Chelsea Green Publishing Co, United States, 1999. Paperback. Book Condition: New. 4th Revised edition. 226 x 135 mm. Language: English . Brand New Book. Soil is the basis not only for all gardening, but for all terrestrial life. No aspect of agriculture is more fundamental and important, yet we have been losing vast quantities of our finite soil resources to erosion, pollution, and development. Now back in print, this eminently sensible and wonderfully well-focused book provides essential information about one of the most significant challenges for those attempting to grow delicious organic vegetables: the creation and maintenance of healthy soil. Chapter 2, Understanding the Soil System, is alone worth the price of admission. Gershuny and Smillie give lay readers and experts a clear explanation of subjects--soil life and nutrient cycles--that have confounded most authors. Nowhere will the reader find simpler and more coherent descriptions of key concepts including cation exchange capacity and chelation. There are other books about soil available, including Grace Gershuny's comprehensive *Start with the Soil*, and there are books that feature chapters on soil building. What distinguishes *The Soul of Soil* is the authors' concise presentation; they give readers important information, including technical essentials, without getting bogged...

Reviews

This is an awesome publication i have at any time read. Of course, it is play, still an interesting and amazing literature. You will like just how the author write this book.

-- **Prof. Herta Mann**

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.
