O'Reilly Media, Inc, USA. Paperback. Book Condition: new. BRAND NEW, Web Design in a Nutshell (3rd Revised edition), Jennifer Niederst, Are you still designing web sites like it's 1999? If so, you're in for a surprise. Since the last edition of this book appeared five years ago, there has been a major climate change with regard to web standards. Designers are no longer using (X)HTML as a design tool, but as a means of defining the meaning and structure of content. Cascading Style Sheets are no longer just something interesting to tinker with, but rather a reliable method for handling all matters of presentation, from fonts and colors to the layout of the entire page. In fact, following the standards is now a mandate of professional web design. Our popular reference, "Web Design in a Nutshell", is one of the first books to capture this new web landscape with an edition that's been completely rewritten and expanded to reflect the state of the art. In addition to being an authoritative reference for (X)HTML and Cascading Style Sheets, this book also provides an overview of the unique requirements of designing for the Web and gets to the nitty-gritty of JavaScript and DOM Scripting, web graphics optimization, and multimedia production. It is an indispensable tool for web designers and developers of all levels. The third edition covers these contemporary web design topics: Structural layer - HTML 4.01 and XHTML 1.0 (9 chapters), including an alphabetical reference of all elements, attributes and character entities; Presentation layer - ten all-new chapters on Cascading Style Sheets, Level 2.1, including an alphabetical reference of all properties and values; Behavior layer - JavaScript and scripting with the Document Object Model (DOM); Web environment - new web standards, browsers, display devices, accessibility, and internationalization; Web graphics optimization -...
