Diffraction by an Elliptic Cylinder (Classic Reprint) (Paperback)

By Bertram Levy

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Diffraction by an Elliptic Cylinder In Section 2 we formulate the boundary value problem for the reduced wave equation corresponding to a cylindrical wave incident upon an acoustically soft or acoustically hard elliptic cylinder. The problem is then solved by the usual separation of variables technique, and an alternative representation for the field is presented. By using the asymptotic expansions for the special functions occurring in the solution the asymptotic expansion of the diffracted field is found in Section 3. In section 4 the diffracted field is constructed geometrically and this construction is shown to be in agreement with the asymptotic expansion of the exact solution. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority...
