Createspace, United States, 2013. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Geospatial engineering capabilities have experienced significant improvements due to organizational changes, technological advancements, and emerging best practices. Geospatial engineering leverages ever-finer temporal and spatial resolutions from additional sensors and platforms that allow increased volumes and more complex data. New methods and technologies provide additional utility and the ability to work effectively within a broad pool of partners and allies. Army Tactics, Techniques, and Procedures (ATTP) 3-34.80 describes doctrine for geospatial engineering operations at all echelons. It is an extension of Field Manual (FM) 3-34 and is linked to joint and other Army doctrine to ensure its usefulness for operational-level commanders and staff. This manual serves as a guide for the integration of geospatial engineering in support of full spectrum operations at all echelons, with added focus on describing the how-to within divisions and the brigades. This publication applies to the Active Army, Army National Guard, Army National Guard of the United States, and the United States Army Reserve unless otherwise stated. ATTP 3-34.80 combines, updates, and supersedes material from FM 3-34.230, FM 5-33, and Training Circular (TC) 5-230 and is built directly on new or revised joint and Army doctrine, notably Army capstone doctrine found in FM 3-0 and engineer keystone doctrine presented in FM 3-34. This revision also captures the results of lessons learned and observations from recent operational experiences in Afghanistan, Iraq, and other locations, to include the challenges of operating in complex terrain. This manual will serve as a reference document for engineer commanders and staff, leaders, training developers, and doctrine developers throughout the Army. It will be a primary manual for instructional purposes in the United States Army Engineer School (USAES) and will help...
