Lulu.com, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Joseph Eger's life is a testimony to the power of music. Among the most widely traveled and venerated classical conductors, Eger has discovered within music a universal language that not only unites people across cultures but also suggests something about the physical rules of life itself. In his previous book, *Einstein's Violin*, Eger illustrated how music relates to the physical world, and also to the social one. In *Music and Revolution*, Eger now shows how the Capitalistic system is responsible for most of the world's ills - from global warming, tsunamis, and natural catastrophes to increasing global poverty; from major wars to the mass killings of children and innocent civilians. This book connects the dots to the causal source - a system that venerates profit over people. Eger presents the symphony as a metaphor for a new cooperative rather than competitive society. At age 92, he claims that Only total change (revolution) can save life on Earth.
