Crash Proof 2.0: How to Profit from the Economic Collapse

By Peter D. Schiff & John Downes

Times Group Books, New Delhi, India, 2010. Softcover. Book Condition: New. First Edition. United States is no longer an illusion--it is here today. And nobody understands what to do in this situation better than the man who saw it coming : seasoned Wall Street prognosticator Peter Schiff. For more than a decade, Schiff has been observing the US economy and believes that the nation faces an economic storm because of increasing federal, personal and corporate debt. There is not enough savings, a declining dollar, lack of domestic manufacturing--all of which means that the overall standard of living in the United States could decline even further over the next few years. Among Schiff's new dire predictions-- a prolonged depression combined with hyperinflation. The bond market bubble will burst, interest rates will spiral, and the dollar will collapse. However, Schiff does have a survival plan that includes investing in commodities, overseas stocks and more liquid investments. Printed Pages: 384.
