 medical devices and human
 infections
 Resistant and Persistent biofilm-based infections

LAP Lambert Academic Publishing Jul 2012, 2012. Taschenbuch. Condition: Neu. Neuware - Biofilm formation is a universal trait of microbes and their implications on wide range of scientific disciplines involving biological wastewater treatment, biogas reactors, water engineering, human infections and evolutionary biology is quite remarkable. Biofilm represent most prevalent type of growth in nature which is crucial in development of clinical infections and emergence of resistance to antimicrobials and thus they pose a serious public health problem. The impact of...
