His journey of discovery reveals a secret past and an ancient and mysterious order of legendary warriors who believe he is their lost leader. With their help, he discovers extraordinary abilities within himself, and that he may be the key to stopping an invading alien force bent on the destruction of man. They can look like us. They can sound like us. And they've come with a hidden agenda of global proportions in this sci-fi action-adventure thriller: the ecological destruction of the earth in order to pave the way for alien colonization. Now reunited, The Black Riders embark on a desperate mission to save humanity - while staying one step ahead of their alien pursuers - in this cautionary tale. The Black Riders is a twenty year culmination of ancient myths, conspiracy theories, UFOlogy, and urban legends within a story rich in character and design. It's an epic body of work that not only brings its own audiences, but weaves legends into drama that already resonates with millions of people. Bob has combined them all in a drama that has the longevity to entertain for many years to come. Since the beginning of time immemorial there have always been and always shall be. THE BLACK RIDERS.
