Performing hot Lessons taps to make these connections and installations can reduce methane emis-sions from pipelines and increase savings and efficiency. The following are Learned several lessons learned offered by partners and hot tap vendors: Hot tapping has been performed by transmission and distribution companies for decades. Vendors can supply suitable fittings and tools for almost every kind of plastic system. If hot tapping has not been performed in the past, a hot tapping proce-dure should be developed and personnel trained. Be sure to include in-structions concerning possible burn through or hydrogen cracking dur-ing welding. All equipment must...
