Not illustrated. 1911 Excerpt: .and interesting if the rules governing wheel design were explained. The tables were issued, I understand, by the Association of Wheel Manufacturers, and it seems a strange thing to me that these tables, which the author thinks should be carefully followed, have never had the consideration of the wheel committee of the M. C. B. Association and at this late day any failure to cast iron wheels is attributed to wrong use of wheels, when apparently the Association has no rules like these, based on these tables for the correct use of wheels under cars of different capacity and under different conditions The paper states that these tables for wheel weight and proportions are to be used exactly as tables applied to strength of I-beams, channels, angles, etc. Now, engineers use the tables relating to I-beams, channels and angles with great confidence, because they know that...
