Filesize: 8.82 MB

Reviews

Good eBook and beneficial one. It really is simplified but unexpected situations from the 50 percent from the ebook. You can expect to like the way the blogger publish this ebook.

(Bridie Stracke DDS)

MUNICIPAL ENGINEERING MECHANICS AND STRUCTURAL

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 319 Publisher: China Building Industry Press. Pub. Date :2007-08. book written according to syllabus of this course. divided into sixteen chapters. the main contents include: Introduction. basic concepts of statics. plane system of forces. axial tension and compression. plane bending beam. the deformation and the stiffness of the component checking profiles. struts stable. statically indeterminate plane frame structure of the force analysis. moment distribution method to calculate the continuous beam the internal forces. affecting the line. basic knowledge of reinforced concrete. reinforced concrete flexural members are calculated cross section flexural capacity of reinforced concrete flexural shear capacity calculated diagonal section of reinforced concrete compression member compression capacity calculation. basic knowledge of prestressed concrete structures. masonry structures and so on. This book can be as higher vocational education professional municipal engineering materials. also available in municipal engineering and related professional and technical personnel to learn. reference. Contents: Chapter 1 Introduction Chapter II the basic concepts of statics Section II the concept of force and couple moment constraints and constraint forces the third quarter by trying to think about questions exercises fourth chapter section plane converging plane force system Section II synthesis system of forces and balance of the general plane plane-couple force system III Department of Exercise Chapter thought questions axial tension and compression section axial pull (pressure) rod axial tensile force II (pressure) Section axial tensile stress bar (pressure) deformation of the fourth quarter pole material Four Satisfaction guaranteed, or money back.
