

teaching the whole solution - high school chemistry (elective 4) chemical reaction theory (Su jiaoban) 09

By XUE JIN XING

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 260 Publisher: Shaanxi People's Education Press Pub. Date :2009-04. high school chemistry education can not rely on a simple mind. back. more importantly. focus on understanding and application of capacity-building and upgrading should learn chemistry focus on the following points: First. improve the high-stage theory of development we must first improve the chemical basis of learning theory. we must lay a solid foundation. Concepts. formulas. physical properties and chemical experiments to learn the basic elements and links. we must focus to grasp. keep in mind. School stage highly specialized knowledge. more abstract. with junior high school learning to pay attention to the content learned. life-related phenomena. textbooks. anthropomorphic graphics to understand and master. Middle part of the knowledge. mostly an extension of previous knowledge. so to review existing knowledge on the basis of new knowledge to improve and enhance. Second. more experimental than practical chemistry is an experimental science. so in the learning process should focus on this subject characteristics. more experimental and more practice. and to be careful operation. careful analysis. In the hands. brains...
