Section exposed in pit number ten, near the center of the east half of section 15 14 North, 8 West. Analyses of phosphate from pit No. 10. J. Ross Hanahan and Davis and Lyons, Analysts. Calcium Phosphate. Iron Alumina. (Ca.iP2O8) (FesOs and AUOs) Per Cent. Per Cent. Bed No. 2 70.40 7.03 Beds 2 to 5, inclusive 59.55 15.05 Davis Lyons, analysts. The other analysis is by Hanahan. The phosphate rock crops out near the top of the hills in the northeast quarter, and the north half of the southeast quarter of section 4, township 14 North, 8 West. The rock is here about one mile from White River, and 450 feet higher than that stream. A portion of the rock in this locality could be mined by stripping; the larger part of it, however, would necessarily be mined by drifting,...
