

Digital Electronics with VHDL Design (Paperback)

By H Hassan M H Hassan, M H Hassan

Innovate LLC, United States, 2008. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. This book presents the theory that is necessary for understanding the fundamentals of digital logic design in an easily understandable approach without the use of unnecessary formalism. It emphasizes the design of digital networks and systems with clear explanations, exceptional collection of design examples, solved problems, and many exercises. The text provides such fundamental concepts as number systems, Boolean algebra, logic gates, minimization of logic functions, combinational network design with logic gates, combinational logic design with standard modules, arithmetic network design, and introduction to design reliability of digital systems. The text presents, after covering the basics, modern design techniques using programmable logic devices and the VHDL hardware description language. The book also introduces Altera s Quartus II CAD software. This textbook is intended for an introductory course in logic design, taken by engineering, engineering technology, and computer science students, for self-learning, or as a good reference for engineers and professionals. About the Author: Michael H. Hassan holds B.S. in Electrical Engineering, M.S. in Electronics Engineering; and...

Reviews

Comprehensive information for publication enthusiasts. It is rally exciting throgh reading through time. I am happy to tell you that here is the greatest book i have got read through in my personal existence and can be he best ebook for possibly.

-- Reese Morisette

Thorough manual for publication fanatics. It is actually rally intriguing throgh reading through period of time. Its been written in an remarkably simple way and is particularly only after i finished reading through this book in which actually transformed me, change the way i think.

-- Morris Schultz
